3 Outlook

Transformation of Commerzbank 4.0 requires capital neutral goodwill impairments in the third quarter 2016

Expected goodwill impact

~€170m

Goodwill allocations and intangible assets in C&M see full impairments of ~€170m

~€530m

As a consequence of these goodwill impairments in C&M, a goodwill impairment is also required in the new corporate clients segment („inheritance effect“)

Outlook on the third quarter 2016

Q3 2016

- We expect revenues in the third quarter to be flat compared to the preceding quarter
- LLPs should be significantly above the two preceding quarters in 2016 due to sustained weakness within shipping market
- We expect third-quarter operating profit to be lower than both the first and the second quarter
- As a consequence of goodwill impairments net result in Q3 2016 should be negative
- We expect CET1 ratio to be higher than in the second quarter 2016

Outlook FY 2016

FY 2016

- Despite goodwill impairments in Q3 2016, we expect a small net profit for the full year 2016
- We expect the CET1 ratio to stand at almost 12% at year-end 2016, provided no significant market distortions occur
- To refinance our restructuring costs, dividend payments will be suspended
